# Metal Progress

January-June 1979, Vol 115 No. 1-6

## Subject Index

In the index listing, the first number indicates the issue number, the second number the page number in that issue. For example, 3-56 indicates issue No. 3 (March), page 56; 5-84 indicates issue No. 5 (May), page 84, and so on. All Datasheets are listed under the heading "Datasheets" only. Index listing is for Vol 115, January-June 1979.

**Aerospace**
Advances in Manufacturing Technology for Titanium Aircraft Structures, by W. T. Highberger .....3-56
Coil Spring Failures in Aerospace Hardware, by S. W. Frost and K. T. Kamber .....3-42
Dimensional Stability of Structural Composites for Space Applications, by Ernest G. Wolff .....6-54
Plastic Bending Analysis of Type 201-T7 Aluminum Castings for Trident I Missiles, by Norm Stein and Gordon Tingley .....3-34

**Aluminum and aluminum alloys**
Aluminum Diffused Steels Resist High Temperatures in Hydrogen Environments, by W. A. McGill and M. J. Weinbaum ..... 2-26
Heat Treating Aluminum Bumper Reinforcements at Pontiac, by Samuel R. Janis .....5-78
Plastic Bending Analysis of Type 201-T7 Aluminum Castings for Trident I Missiles, by Norm Stein and Gordon Tingley .....3-34
Uncommon Failures in Aluminum Alloys, by H. V. Pellegrini, C. M. Bishop and J. M. Bennett .....3-38

**Basic production**
Trends in Basic Production Technology: Tech. Forecast '79 .....1-53

**Casting**
Plastic Bending Analysis of Type 201-T7 Aluminum Castings for Trident I Missiles, by Norm Stein and Gordon Tingley .....3-34
Trends in Casting Technology: Tech. Forecast '79 .....1-48
Welding Bests Casting in Wicket Gate Applications, by E. W. Rowlands, Raymond L. Secrest and James R. Nolt Jr. .....4-34

**Cleaning, Finishing, Coating**
Trends in Cleaning, Finishing and Coating Technology: Tech. Forecast '79 .....1-49
Wear Resistance of Silicon Carbide Composite Coatings, by J. Michael Sale .....4-44

**Corrosion resistance**
Corrosion-Biofouling Relationship of Metals in Seawater, by Harry E. Chandler .....6-47
IN-939: A Corrosion-Resistant Alloy for Industrial and Marine Turbine Blades, by Stuart W. K. Shaw .....3-47

**Cutting tools**
How Composition Affects the Properties and Performance of Cemented Carbide Cutting Tools, by Herbert Kalish and James S. August .....6-64

**Datasheets**
Composition and Mechanical Property Requirements for Covered Stainless Steel Electrodes .....4-60
Converting to Metric Bolting .....5-82
Properties and Characteristics of IN-939 .....3-66
Properties and Corrosion Behavior of the New Ferritic Stainless Steels .....6-71
Protecting Carbon Steels From Corrosion .....2-50
Troubleshooting Checklist for Metal Drawing Operations .....1-81

**Editorials**
ASM's Technical Priorities: Focus on Industry Challenges, by Allen G. Gray .....1-22
Diesels and Burned Toast, by Harry E. Chandler .....5-19
Materials: A Critical Issue, by Allen G. Gray .....6-25
Metallurgy and Welding Technology, by Allen G. Gray .....4-31
More on Metallurgists, by Harry E. Chandler .....2-11
Niche for Ferritics in Chemical Processing, by Allen G. Gray .....2-23
Realities of the Productivity Gap, by Allen G. Gray .....5-41
Self-Imposed Censorship, by Harry E. Chandler ..... 6-11
Selling Basic Research, by Harry E. Chandler ..... 3-9
Strong Aerospace Growth Promises Lift for Technology, by Allen G. Gray .....3-31
Where Innovation Went?, by Harry E. Chandler .....1-17
You Should Know, by Harry E. Chandler .....4-11

**Energy**
The Management of Energy, by Harry E. Chandler .....5-44
Some Views on the Energy Situation: Tech. Forecast '79 .....1-29

**Failure**
Coil Spring Failures in Aerospace Hardware, by S. W. Frost and K. T. Kramer .....3-42
Uncommon Failures in Aluminum Alloys, by H. V. Pellegrini, C. M. Bishop and J. M. Bennett .....3-38

**Forming**
Trends in Forming Technology: Tech. Forecast '79 .....1-55

**Fracture toughness**
Fracture Resistance in Carburizing Steels. Part I:

# Metal Progress

January-June 1979, Vol 115 No. 1-6

## Subject Index

In the index listing, the first number indicates the issue number, the second number the page number in that issue. For example, 3-56 indicates issue No. 3 (March), page 56; 5-84 indicates issue No. 5 (May), page 84, and so on. All Datasheets are listed under the heading "Datasheets" only. Index listing is for Vol 115, January-June 1979.

**Aerospace**
Advances in Manufacturing Technology for Titanium Aircraft Structures, by W. T. Highberger .....3-56
Coil Spring Failures in Aerospace Hardware, by S. W. Frost and K. T. Kamber .....3-42
Dimensional Stability of Structural Composites for Space Applications, by Ernest G. Wolff .....6-54
Plastic Bending Analysis of Type 201-T7 Aluminum Castings for Trident I Missiles, by Norm Stein and Gordon Tingley .....3-34

**Aluminum and aluminum alloys**
Aluminum Diffused Steels Resist High Temperatures in Hydrogen Environments, by W. A. McGill and M. J. Weinbaum ..... 2-26
Heat Treating Aluminum Bumper Reinforcements at Pontiac, by Samuel R. Janis .....5-78
Plastic Bending Analysis of Type 201-T7 Aluminum Castings for Trident I Missiles, by Norm Stein and Gordon Tingley .....3-34
Uncommon Failures in Aluminum Alloys, by H. V. Pellegrini, C. M. Bishop and J. M. Bennett .....3-38

**Basic production**
Trends in Basic Production Technology: Tech. Forecast '79 .....1-53

**Casting**
Plastic Bending Analysis of Type 201-T7 Aluminum Castings for Trident I Missiles, by Norm Stein and Gordon Tingley .....3-34
Trends in Casting Technology: Tech. Forecast '79 .....1-48
Welding Bests Casting in Wicket Gate Applications, by E. W. Rowlands, Raymond L. Secrest and James R. Nolt Jr. .....4-34

**Cleaning, Finishing, Coating**
Trends in Cleaning, Finishing and Coating Technology: Tech. Forecast '79 .....1-49
Wear Resistance of Silicon Carbide Composite Coatings, by J. Michael Sale .....4-44

**Corrosion resistance**
Corrosion-Biofouling Relationship of Metals in Seawater, by Harry E. Chandler .....6-47
IN-939: A Corrosion-Resistant Alloy for Industrial and Marine Turbine Blades, by Stuart W. K. Shaw .....3-47

**Cutting tools**
How Composition Affects the Properties and Performance of Cemented Carbide Cutting Tools, by Herbert Kalish and James S. August .....6-64

**Datasheets**
Composition and Mechanical Property Requirements for Covered Stainless Steel Electrodes .....4-60
Converting to Metric Bolting .....5-82
Properties and Characteristics of IN-939 .....3-66
Properties and Corrosion Behavior of the New Ferritic Stainless Steels .....6-71
Protecting Carbon Steels From Corrosion .....2-50
Troubleshooting Checklist for Metal Drawing Operations .....1-81

**Editorials**
ASM's Technical Priorities: Focus on Industry Challenges, by Allen G. Gray .....1-22
Diesels and Burned Toast, by Harry E. Chandler .....5-19
Materials: A Critical Issue, by Allen G. Gray .....6-25
Metallurgy and Welding Technology, by Allen G. Gray .....4-31
More on Metallurgists, by Harry E. Chandler .....2-11
Niche for Ferritics in Chemical Processing, by Allen G. Gray .....2-23
Realities of the Productivity Gap, by Allen G. Gray .....5-41
Self-Imposed Censorship, by Harry E. Chandler ..... 6-11
Selling Basic Research, by Harry E. Chandler ..... 3-9
Strong Aerospace Growth Promises Lift for Technology, by Allen G. Gray .....3-31
Where Innovation Went?, by Harry E. Chandler .....1-17
You Should Know, by Harry E. Chandler .....4-11

**Energy**
The Management of Energy, by Harry E. Chandler .....5-44
Some Views on the Energy Situation: Tech. Forecast '79 .....1-29

**Failure**
Coil Spring Failures in Aerospace Hardware, by S. W. Frost and K. T. Kramer .....3-42
Uncommon Failures in Aluminum Alloys, by H. V. Pellegrini, C. M. Bishop and J. M. Bennett .....3-38

**Forming**
Trends in Forming Technology: Tech. Forecast '79 .....1-55

**Fracture toughness**
Fracture Resistance in Carburizing Steels. Part I:

# Metal progress subject index

Fracture Toughness, by Yancey E. Smith and Daniel Diesburg .....5-68

Fracture Resistance in Carburizing Steels. Part II: Impact Fracture, by Daniel E. Diesburg and Yancey E. Smith .....6-35

**Furnaces**

Economics of Nitrogen-Based Carburizing Atmospheres, by James R. Dale and John J. Artopoeus .....5-49

Effects of Furnace Design and Operating Parameters on the Decarburization of Steel, by George E. Wieland and Eugene M. Rudzki .....2-40

TRW Mission Evaluates the Carbon Sensor, by Frank C. Reeves, John V. Skiles and Robert F. Kane .....5-53

**Heat processing**

Trends in Heat Processing Technology: Tech. Forecast '79 .....1-45

**Heat treatment**

A Simplified Method for Determining Test Specimen Heat Treatments, by Rudy Dirscherl .....5-84

Economics of Nitrogen-Based Carburizing Atmospheres, by James R. Dale and John J. Artopoeus .....5-49

Effects of Furnace Design and Operating Parameters on the Decarburization of Steel, by George E. Wieland and Eugene M. Rudzki .....2-40

Heat Treating Aluminum Bumper Reinforcements at Pontiac, by Samuel R. Janis .....5-78

Improving Salt Bath Equipment Life, by Jon R. Bryant and Donald E. Wenschhof Jr. .....2-38

Unique Heat Treating Technique for Tube-To-Tubesheet Welds, by Robert C. Kay, Vincent G. McGevna and Harry Schwartzbart .....4-41

Update on AMEC's Decarburization Program, by Robert H. Gassner .....3-51

Using Differential Thermal Analysis to Determine Phase Change Temperatures, by John S. Fipphen and Robert B. Sparks .....4-56

**High speed steels**

P/M Alternatives to Conventional Processing of High Speed Steels, by Terry Levin and Richard P. Hervey .....6-30

**High strength steels**

Barnacle Electrode: New Tool for Measuring Hydrogen in High Strength Steels, by D. A. Berman and J. J. Deluccia .....5-58

**Materials**

Some Views on the Materials Situation: Tech. Forecast '79 .....1-30

Trends in Special-Duty Materials Technology: Tech. Forecast '79 .....1-40

**Materials systems**

Steel Metrication at Caterpillar, by Robert B. Liss and Andrew B. Johnson .....5-62

The Vise, by Donald F. Baxter Jr. .....5-66

**Metrication**

Steel Metrication at Caterpillar, by Robert B. Liss and Andrew B. Johnson .....5-62

**Nickel alloys**

IN-939: A Corrosion-Resistant Alloy for Industrial and Marine Turbine Blades, by Stuart W. K. Shaw .....3-47

**Plastics, Ceramics, Composites**

Dimensional Stability of Structural Composites for Space Applications, by Ernest G. Wolff .....6-54

Trends in Plastics, Ceramics, and Composites Technology: Tech. Forecast '79 .....1-41

Wear Resistance of Silicon Carbide Composite Coatings, by J. Michael Sale .....4-44

**Powder metallurgy**

P/M Alternative to Conventional Processing of High Speed Steels, by Terry Levin and Richard P. Hervey .....6-30

Trends in Powder Metallurgy Technology: Tech. Forecast '79 .....1-69

**Stainless steel**

Performance Requirements for Stainless Steels in the Chemical Process Industry, by Heinz Spahn .....2-32

The New Ferritic Stainless Steels, by Ralph M. Davison and Robert F. Steigerwald .....6-40

**Steel**

Aluminum Diffused Steels Resist High Temperatures in Hydrocarbon Environments, by W. A. McGill and M. J. Weinbaum .....2-26

Barnacle Electrode: New Tool for Measuring Hydrogen in High Strength Steels, by D. A. Berman and J. J. Deluccia .....5-58

Effects of Furnace Design and Operating Parameters on the Decarburization of Steel, by George E. Wieland and Eugene M. Rudzki .....2-40

Fracture Resistance in Carburizing Steels. Part I: Fracture Toughness, by Yancey E. Smith and Daniel Diesburg .....5-68

Fracture Resistance in Carburizing Steels. Part II: Impact Fracture, by Daniel E. Diesburg and Yancey E. Smith .....6-35

How Composition Affects the Properties and Performance of Cemented Carbide Cutting Tools, by Herbert S. Kalish and James S. August .....6-64

Performance Requirements for Stainless Steels in the Chemical Process Industry, by Heinz Spahn .....2-32

P/M Alternative to Conventional Processing of High Speed Steels, by Terry Levin and Richard P. Hervey .....6-30

Steel Metrication at Caterpillar, By Robert B. Liss and Andrew B. Johnson .....5-62

The New Ferritic Stainless Steels, by Ralph M. Davison and Robert F. Steigerwald .....6-40

Trends in Steel Technology: Tech. Forecast '79 .....1-31

**Superalloys**

Trends in Superalloy Technology: Tech. Forecast '79 .....1-38

**Testing and Inspection**

Barnacle Electrode: New Tool

for Measuring Hydrogen in High Strength Steels, by D. A. Berman and J. J. Deluccia .....5-58
Trends in Testing and Inspection: Tech. Forecast '79 .....1-59

**Titanium**
Advances in Manufacturing Technology for Titanium Aircraft Structures, by W. T. Highberger .....3-56

**Wear**
Wear Resistance of Silicon Carbide Composite Coatings, by J. Michael Sale .....4-44

**Welding and Joining**
All-Position Flux-Cored Arc Welding, by Robert L. Harris .....2-52
Avoid Martensite When Welding Rebar, by Mark Firth and William M. Williams .....4-38
Filler Metal Remains Ductile in High Temperature Applications, by Donald F. Baxter Jr. .....4-62
Trends in Welding and Joining Technology: Tech. Forecast '79 .....1-58
Unique Heat Treating Technique for Tube-To-Tubesheet Welds, by Robert C. Kay, Vincent G. McGevna and Harry Schwartzbart .....4-41
Welding Bests Casting in Wicket Gate Applications, by E. W. Rowlands, Raymond L. Secrest, and James R. Nolt Jr. .....4-34

Metal Progress
Mid-June-December 1979, Vol 116, No. 1-8

# Subject Index

In the index listing for each article, the first number indicates the issue number, the second number the page in that issue. Issue numbers are: 1, Databook; 2, July; 3, August; 4, September; 5, October; 6, November; 7, Heat Treating Buyers Guide (not indexed); and 8, December. All datasheets are listed under the heading "Datasheets."

**Abrasive Wear**
How Microstructure Affects Abrasive Wear Resistance, by Karl-Heinz Zum Gahr .....4-46

**Acoustic Emission Testing**
Acoustic Emmission Technology 1979, by Allen T. Green .....3-40

**Aluminum Alloys**
Permanent Mold Casting of Aluminum at Fiat, by Sergio Gallo .....4-75
The Quiet Success of Aluminum P/M, by John D. Generous .....6-52

**Appliances**
Plastics in Appliances . . . Doing What Can't Be Done With Metals, by Harry E. Chandler .....6-34

**Automobiles**
Dual-Phase Sheet Steels for Automotive Applications, by Takashi Furukawa .....8-36
Overview of Japanese Automotive Materials, by Harry E. Chandler .....4-42
Permanent Mold Casting of Aluminum at Fiat, by Sergio Gallo .....4-75

**Biography**
Ray Smith: New President of the American Society for Metals, by L. J. Haga .....8-62

**Casting**
Ductile Iron: A New Investment Casting Material, by Timothy L. Coghill .....8-40
Permanent Mold Casting of Aluminum at Fiat, by Sergio Gallo .....4-75

**Clad Metals**
Overview: Inlay Clad Metal and Other Electrical Contact Materials, by Craig B. Harlan .....6-40

**Coatings**
Alternative Method for Measuring Phosphate Coating Weight, by Norman R. Roobol, Walter L. Hoehn Sr., and Terry S. Schaffer .....6-60
Coated Sheet Steels Combat Corrosion, by Donald P. Cassidy .....5-72
Simplified Penetrant Inspection of Painted Surfaces, by Sarah A. Chandler .....6-45

**Corrosion**
Coated Sheet Steels Combat Corrosion, by Donald P. Cassidy .....5-72
Corrosion Failure Analysis, by Wilson G. Dobson .....3-57
A Technique for the Quantitative Prediction of Corrosion Behavior, by Chris Bagnall and Robert E. Witkowski .....3-50

**Datasheets**
*Irons and Steels*
AISI-SAE Standard Alloy Steels .....1-18
AISI-SAE Standard Carbon Steels .....1-17
Alloys for International LMFBR Steam Generator Service .....2-41
Classification and Selection of Tool Steels .....1-58
Expected Minimum Mechanical Properties, Conventional Practice, of Cold-Drawn Carbon Steel Rounds, Squares, and Hexagons .....1-27
High-Strength Steels for Automotive Applications .....1-34
Low-Temperature Impact Properties of Selected Quenched and Tempered Alloy Steels .....1-37
Maximum Hardness of Annealed, Cold Rolled, High-Carbon Strip Steel .....4-71
Properties and Applications of Corrosion Resistant Stainless and High-Alloy Steel Castings .....1-57
Properties and Applications of Ferrous Powder Metal Parts .....1-68
Properties and Applications of Heat-Resistant Stainless and High-Alloy Steel Castings .....1-55
Properties, Applications, and Cutting Conditions for Malleable Iron Castings .....1-67
Properties of Selected Carbon and Alloy Steels .....1-24
Selection and Heat Treatment of Ferrous Alloys for Automotive Components .....1-31

Specifications and Properties of Ductile (Nodular) Iron Castings ..... 1-64
Specifications and Properties of Gray and White Iron Castings ..... 1-62
Standard Stainless and Heat-Resisting Steels ..... 1-42

*Nonferrous Metals and Alloys*
Compositions, Characteristics, Properties, and Typical Applications of Aluminum Sand and Permanent Mold Casting Alloys ..... 1-82
Compositions, Properties, and Applications of Magnesium Alloys ..... 1-97
Properties and Applications of Cast Coppers and Copper Alloys ..... 1-92
Properties and Applications of Nonferrous Powder Metal Parts ..... 1-72
Properties and Applications of Widely Used Wrought Coppers and Copper Alloys ..... 1-84
Properties and Applications of Wrought Aluminum Alloys ..... 1-76
Properties, Characteristics, and Applications of Heat-Treatable Aluminum Alloys ..... 1-80

*Superalloys, Special-Duty Metals; Nonmetallics, Plastics*
Compositions and Properties of Representative Refractory Metal Alloys ..... 1-107
Guide to Selection of Superalloys ..... 1-100
How Reinforcement Affects the Properties of Nylon 6/6 ..... 6-39
Properties of Alloys for Low-Temperature and Cryogenic Service ..... 1-104
Properties of Annealed Commercial Grades of Zirconium and Its Alloys ..... 1-109
Properties of Commonly Used Glass Fiber-Reinforced Plastics ..... 1-116
Properties of the Noble Metals ..... 1-113

*Heat Treating*
Calculating Hardenability Curves From Chemical Composition ..... 1-126
Cooling Transformation Diagram for AISI 4340 ..... 1-146
Equilibria for Gas Carburizing ..... 1-154
Exothermic and Endothermic Furnace Atmospheres ..... 1-153
Hardenability Bands for Standard AISI-SAE H-Steels ..... 1-131
Heat Treatments for Wrought Aluminum Alloys ..... 1-155
Iron-Carbon Equilibrium Diagram ..... 1-121
Recommended Temperatures and Time Cycles for Annealing Alloy Steels ..... 1-125
Selection Guide to Thermocouples and Protection Tubes ..... 1-162
Surface Hardening of Steel by Induction ..... 1-151
Typical Heat Treatments and Characteristics of AISI Tool Steels ..... 1-158

*Testing and Inspection*
Adhesive Wear Compatability of Selected Corrosion-Resistant Alloy Couples ..... 1-197
Common Units for Converting From the English to the Metric (SI) System ..... 1-165
Electrolytes for the Electrolytic Polishing of Metallographic Specimens ..... 3-53
English/Metric (SI) Fracture Toughness Conversion Factors ..... 1-171
English/Metric (SI) Impact Energy Conversion Factors ..... 1-169
English/Metric (SI) Stress Conversion Factors ..... 1-166
Hardness Conversion Tables ..... 1-173
Metallographic Reagents for Iron and Steel ..... 1-181
Metallography of Aluminum and Aluminum Alloys ..... 1-187
Metallography of Coppers and Copper Alloys ..... 1-192
Nondestructive Methods for Rating Materials ..... 1-175

*Cleaning, Finishing, and Coating*
Guide for Selecting Minimum Thickness for Quality Coatings ..... 1-204
Guide to Mill-Applied Inorganic Coatings for Sheet Steels ..... 5-66
Selection Guide to Coil-Coated Finishes ..... 1-202
Troubleshooting Checklist for Phosphating Systems ..... 1-198

*Welding and Joining*
Composition and Mechanical Property Requirements for Covered Stainless Steel Electrodes ..... 1-214
Filler Metal Selection for Welding Aluminum Alloys ..... 1-218
Recommended Electrodes for Shielded Metal-Arc Welding of Carbon and Low-Alloy ASTM Steels ..... 1-208
Selecting Arc Welding Electrodes for Mild and Low-Alloy Steels ..... 1-212
Shielding Gas Selection Guide ..... 1-205
Standard Brazing Filler Metals: Compositions, Characteristics, Uses ..... 1-220

*Forming and Machining*
Forging Temperature Ranges for Steels and Superalloys ..... 1-223
Guide for Machining Standard AISI Stainless Steels in Automatic Equipment ..... 1-228
Machinability Ratings for Cold-Drawn Carbon Steel Bars ..... 1-227
Machining Ultrahigh-Strength Alloys ..... 1-229
Recommended Minimum Bend Radii for 90° Cold Forming of Aluminum Sheet and Plate ..... 1-224
Troubleshooting Checklist for Metal Drawing Operations ..... 1-222
Troubleshooting Guide to Machine Flame Cutting ..... 8-45

**Dual-Phase Steels**
Designing High Performance Steels With Dual-Phase Structures, by Jayoung Koo, Bangaru V. Narasimha Rao, and Gareth Thomas ..... 4-66
Dual-Phase Sheet Steels for Automotive Applications, by Takashi Furukawa ..... 8-36

**Editorials**
The Case for Substitution Preparedness, by Allen G. Gray ..... 4-35
The Changing Materials Picture, by Allen G. Gray ..... 8-31
Changing Priorities, by Harry E. Chandler ..... 5-9
Energy: New Factor in Selection, by Allen G. Gray ..... 2-29
Four Metals at Top of Critical List, by Allen G. Gray ..... 6-31
Lack of Foresight, by Harry E. Chandler ..... 4-11
Lesson in Numbers, by Harry E. Chandler ..... 2-11
A New Ball Game, by Harry E. Chandler ..... 8-11
New Steel Technologies Benefit Users, by Allen G. Gray ..... 5-45
Prospects for Steel Shortage by 1985, by Allen G. Gray ..... 3-25
Risks and Tradeoffs, by Harry E. Chandler ..... 3-9
Worth $100 Billion?, by Harry E. Chandler ..... 6-9

**Electrolytic Etching**
Versatile Electrolytic Technique Etches Dissimilar Metal Specimens, by Michael J. Kenney ..... 3-37

**Electron Microscopy**
A Technique for the Quantitative Prediction of Corrosion Behavior, by Chris Bagnall and Robert E. Witkowski ..... 3-50

**Electronic Materials**
Overview: Inlay Clad Metal and

Other Electrical Contact Materials, by Craig B. Harlan .....6-40

**Energy**
The Heavy Section Steel Technology (HSST) Program, by Domenic A. Canonico .....2-32
Materials Technology for LMFBR Steam Generators, by C. R. Brinkman and M. Katcher .....2-54
A Modified Type 347 Stainless Steel for Nuclear Power Applications, by Seizaburo Abe and Tadao Ogawa .....4-61
Oak Ridge Report on Three Mile Island Accident, by Carolyn Krause .....8-60
Operating Experience With Titanium Steam Turbine Blades, by T. M. Rust, B. B. Seth, and R. E. Warner .....2-62

**Failure Analysis**
Corrosion Failure Analysis, by Wilson G. Dobson .....3-57
Oak Ridge Report on Three Mile Island Accident, by Carolyn Krause .....8-60
Solving a Reliability Problem in Printed Circuit Board Fabrication, by Charles C. Hammerberg and Alan W. Smith .....3-54

**Fatigue**
Fracture Resistance in Carburizing Steels, Part III: Impact Fatigue, by Daniel E. Diesburg and Yancey E. Smith .....2-67

**Fracture**
Fracture Resistance in Carburizing Steels, Part III: Impact Fatigue, by Daniel E. Diesburg and Yancey E. Smith .....2-67

**Heat Treating**
Nitrogen-Base Heat Treating at Platt Saco Lowell, by Robert W. Russell .....8-46

**Investment Casting**
Ductile Iron: A New Investment Casting Material, by Timothy L. Coghill .....8-40

**Irons**
Ductile Iron: A New Investment Casting Material, by Timothy L. Coghill .....8-40

**Management**
The Management of Quality, by, Harry E. Chandler .....3-28
Metallography and the Small Manufacturer, by James A. Nelson .....3-32
An Overview of Steel Service Center Technology .....4-72

**Materials Availability**
Effects of Materials Shortages on Stainless Steel Technology, by R. A. Lula .....5-60

**Materials Engineering**
Overview of Japanese Automotive Materials, by Harry E. Chandler .....4-42

**Materials Selection**
Overview of Japanese Automotive Materials, by Harry E. Chandler .....4-42

**Metallic Glasses**
Ferrous Metallic Glasses, by John J. Gilman .....2-42

**Metallography**
Metallography and the Small Manufacturer, by James A. Nelson .....3-32
Solving a Reliability Problem in Printed Circuit Board Fabrication, by Charles C. Hammerberg and Alan W. Smith .....3-54
A Technique for the Quantitative Prediction of Corrosion Behavior, by Chris Bagnall and Robert E. Witkowski .....3-50
Versatile Electrolytic Technique Etches Dissimilar Metal Specimens, by Michael J. Kenney .....3-37

**Nickel**
Nickel Requirements for Equivalent Structures in Austenitic Stainless Steels, by Goran Molinder .....6-56

**Nitrogen Atmospheres**
Nitrogen-Base Heat Treating at Platt Saco Lowell, by Robert W. Russell .....8-46

**Nondestructive Testing**
Acoustic Emission Technology 1979, by Allen T. Green .....3-40
Alternative Method for Measuring Phosphate Coating Weight, by Norman R. Roobol, Walter L. Hoehn Sr., and Terry S. Schaffer .....6-60
Simplified Penetrant Inspection of Painted Surfaces, by Sarah A. Chandler .....6-45

**Nonmetallics**
Plastics in Appliances . . . Doing What Can't Be Done With Metals, by Harry E. Chandler .....6-34

**Nuclear Reactors**
The Heavy Section Steel Technology (HSST) Program, by Domenic A. Canonico .....2-32
Materials Technology for LMFBR Steam Generators, by C. R. Brinkman and M. Katcher .....2-54
A Modified Type 347 Stainless Steel for Nuclear Power Applications, by Seizaburo Abe and Tadao Ogawa .....4-61
Oak Ridge Report on Three Mile Island Accident, by Carolyn Krause .....8-60

**Penetrant Inspection**
Simplified Penetrant Inspection of Painted Surfaces, by Sarah A. Chandler .....6-45

**Permanent Mold Casting**
Permanent Mold Casting of Aluminum at Fiat, by Sergio Gallo .....4-75

**Plastics**
Plastics in Appliances . . . Doing What Can't Be Done With Metals, by Harry E. Chandler .....6-34

**Powder Metallurgy**
High Temperature Sintering Substantially Improves Properties of Ferrous Powder Parts, by S. Mocarski and D. W. Hall .....8-50
The Quiet Success of Aluminum P/M, by John D. Generous .....6-52

**Pressure Vessels**
The Heavy Section Steel Technology (HSST) Program, by Domenic A. Canonico .....2-32

**Quality Control**
The Management of Quality, by Harry E. Chandler .....3-28

**Service Centers**
An Overview of Steel Service Center Technology .....4-72

**Sintering**
High Temperature Sintering Substantially Improves Properties of Ferrous Powder Parts, by S. Mocarski and D. W. Hall .....8-50

**Special-Duty Materials**
Ferrous Metallic Glasses, by John J. Gilman .....2-42

# If you're joining metals, you shouldn't be without Tricon's "Brazing Materials Guide"

**Our newly published 16 page handy reference booklet provides a wide range of information on brazing materials including a selector chart for silver brazing alloys. It also describes our extensive line of preforms—rings, washers, slugs, discs, balls and special shapes. And there's data on our Trimetal Shims for brazing carbide tools; and a whole section of useful recommendations on brazing carbide tool tips.**

**The guide is free. Write for it.**

## Metal Progress Subject Index

Overview: Inlay Clad Metal and Other Electrical Contact Materials, by Craig B. Harlan .....6-40

**Stainless Steels**
Effects of Materials Shortages on Stainless Steel Technology, by R. A. Lula .....5-60
A Modified Type 347 Stainless Steel for Nuclear Power Applications, by Seizaburo Abe and Tadao Ogawa .....4-61
Nickel Requirements for Equivalent Structures in Austenitic Stainless Steels, by Goran Molinder .....6-56

**Standards**
Nickel Requirements for Equivalent Structures in Austenitic Stainless Steels, by Goran Molinder .....6-56

**Steels**
Coated Sheet Steels Combat Corrosion, by Donald P. Cassidy .....5-72
Designing High Performance Steels With Dual-Phase Structures, by Jayoung Koo, Bangaru V. Narasimha Rao, and Gareth Thomas .....4-66
Dual-Phase Sheet Steels for Automotive Applications, by Takashi Furukawa .....8-36
Effects of Materials Shortages on Stainless Steel Technology, by R. A. Lula .....5-60
Fracture Resistance in Carburizing Steels, Part III: Impact Fatigue, by Daniel E. Diesburg and Yancey E. Smith .....2-67
The Heavy Section Steel (HSST) Technology Program, by Domenic A. Canonico .....2-32
High Temperature Sintering Substantially Improves Properties of Ferrous Powder Parts, by S. Mocarski and D. W. Hall .....8-50
Materials Technology for LMFBR Steam Generators, by C. R. Brinkman and M. Katcher .....2-54
A Modified Type 347 Stainless Steel for Nuclear Power Applications, by Seizaburo Abe and Tadao Ogawa .....4-61
Nickel Requirements for Equivalent Structures in Austenitic Stainless Steels, by Goran Molinder .....6-56
An Overview of Steel Service Center Technology .....4-72
User Experience With Strand Cast Steels, by Harry E. Chandler .....5-48

**Strand Cast Steels**
User Experience With Strand Cast Steels, by Harry E. Chandler .....5-48

**Titanium Alloys**
Operating Experience With Titanium Steam Turbine Blades, by T. M. Rust, B. B. Seth, and R. E. Warner .....2-62

**Tour Guides**
ASM 1979 Materials & Processing Congress: Program Synopsis .....5-85
1979 Materials & Processing Show: Tour Guide .....5-89

**Wear**
How Microstructure Affects Abrasive Wear Resistance, by Karl-Heinz Zum Gahr .....4-46

**X-Ray Analysis**
A Technique for the Quantitative Prediction of Corrosion Behavior, by Chris Bagnall and Robert E. Witkowski .....3-50

## Author Index

Abe, Seizaburo .....4-61
Bagnall, Chris .....3-50
Brinkman, C. R. .....2-54
Canonico, Domenic A. .....2-32
Cassidy, Donald P. .....5-72
Chandler, Harry E. .....2-11, 3-9, 3-28, 4-11, 4-42, 5-9, 5-48, 6-9, 6-34, 8-11
Chandler, Sarah A. .....6-45
Coghill, Timothy L. .....8-40
Diesburg, Daniel E. .....2-67
Dobson, Wilson G. .....3-57
Furukawa, Takashi .....8-36
Gallo, Sergio .....4-75
Generous, John D. .....6-52
Gilman, John J. .....2-42
Gray, Allen G. .....2-29, 3-25, 4-35, 5-45, 6-31, 8-31
Green, Allen T. .....3-40
Haga, L. J. .....8-62
Hall, D. W. .....8-50
Hammerberg, Charles C. .....3-54
